01 Accountability and Ownership

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **BARJ** **CBT**

YOUTH

An online accountability class for teens and juveniles that teaches young people to take responsibility for their actions and understand the consequences of their choices. Through self-reflection and honesty, participants learn how owning their decisions builds trust, improves relationships with family and peers, and supports positive change and personal growth.

ADULT

Blaming others keeps people stuck. This online personal responsibility class helps adults own their decisions, follow through on commitments and make amends when they fall short. You will learn how accountability repairs damaged trust with partners, family, employers and the courts, and leave with a plan for lasting behavior change.

PARENT

Accountability builds the trust and respect that open communication depends on, especially between parents and teens. This class shows parents how to help a struggling teen take ownership of their actions, responsibilities and commitments, creating a more positive family environment.

02 Addictive Behaviors

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **CBT** **DM*** **SLT**

YOUTH

An online addictive behaviors class for pre-teens and teens, whether court-involved or simply looking for support. Young people learn how addictive behaviors, including substance use, vaping, gaming, gambling, internet and social media use, shopping and eating habits, affect their mental and physical health, relationships and quality of life, and how to make healthier choices.

ADULT

Addiction isn't limited to drugs and alcohol. This online class helps adults recognize compulsive patterns such as gambling, overspending, excessive screen time and emotional eating, and understand the toll they take on health, finances, careers and family life. Participants identify their triggers and build a practical plan for regaining control. Suitable for court-ordered or voluntary enrollment.

PARENT

Whether a parent or child, addictive behaviors can have significant impacts on both your mental and physical health, as well as interpersonal relationships, and overall quality of life. Addictive behaviors encompass a wide range of activities beyond substance abuse, including gambling, gaming, internet use, shopping, and even certain types of eating behaviors.

03 Alcohol Abuse & Addiction

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **CBT** **RT** **SLT**

YOUTH

One drink can lead to choices that follow a young person for years. This skills-based class gives pre-teens and teens the facts about how alcohol affects a growing brain and body, and the real risks of underage drinking, from school discipline to legal trouble. They practice simple ways to say no and handle peer pressure with confidence.

ADULT

An online alcohol awareness class for adults who want to take an honest look at their drinking. Participants learn how alcohol affects the body, mind and judgment, how to recognize when social drinking turns into a problem, and the legal, health and family consequences that can follow. They leave with practical strategies for drinking less or not at all and making safer choices.

PARENT

When a child gets in trouble with alcohol, parents often don't know where to start. This class helps parents respond calmly after an incident at home, at school or with the law. Parents learn how alcohol affects a developing brain, how to have a productive conversation instead of a fight, and how to set clear rules and consequences that keep their child safer.

04 Alcohol Abuse & Addiction

DURATION **8 hrs** | PRICE **$89.99**

THEORIES **CBT** **RT** **SLT**

YOUTH

This in-depth, skills-based class helps pre-teens and teens understand why young people drink, how alcohol changes brain development, and how underage drinking can affect health, grades, family trust, friendships and their future. Through real-life scenarios, they practice decision-making, refusal skills and healthy ways to cope with stress, so they can make safe choices when it counts.

ADULT

This in-depth online alcohol abuse prevention class helps adults understand their drinking patterns and what drives them, from stress and habit to social pressure. Participants explore how alcohol damages health, careers and relationships, and what loved ones need from them to rebuild trust. They learn to manage triggers and cravings, refuse drinks with confidence, and create a personal plan for lasting change.

PARENT

Supports parents whose child is struggling with alcohol use or facing school or juvenile court consequences. Parents learn why teens drink, how to recognize when use is becoming a pattern, and how family stress and parents' own habits can play a role. They build skills for rebuilding trust, monitoring without pushing their child away, working with schools and courts, and knowing when to seek counseling or treatment.

05 Assessing Your Resources

DURATION **3 hrs** | PRICE **$39.99**

YOUTH

ADULT

An online life skills class that teaches adults to identify the resources they have and manage their time, space and money wisely. Participants learn practical ways to set priorities, reduce waste and work more efficiently, so they can reach personal and professional goals and build long-term stability.

PARENT

A practical online class for court-involved parents who are rebuilding stability for their family. Parents take stock of the resources available to them and learn to manage time, home and money: keeping a schedule, creating a safe, organized living space and budgeting for their children's needs. It's a helpful step for parents working toward reunification or completing a case plan.

06 Beyond Abuse and Neglect

DURATION **2 hrs** | PRICE **$29.99**

THEORIES AT PT TIC

YOUTH

A supportive online class for pre-teens and teens who have experienced abuse or neglect, whether court-involved or not. In a safe space, young people learn how past experiences affect them and build resilience, self-worth and healthy coping skills. They learn ways to manage trauma, form positive relationships and set goals for healing, growth and a hopeful future.

ADULT

Past abuse and neglect can shape how adults think, feel and relate to others for years afterward. This online class helps survivors understand the lasting effects of trauma and begin to move past them. Participants practice self-compassion, learn healthy ways to cope, rebuild trust in relationships and set personal goals for recovery and growth.

PARENT

07 Building Resilience

DURATION **2 hrs** | PRICE **$29.99**

THEORIES PST PT TIC

YOUTH

Setbacks don't have to define a young person's future. This skills-based class teaches pre-teens and teens how to bounce back from tough situations, manage stress and make better decisions under pressure. They build emotional strength, learn to adapt to change, form healthier friendships and family relationships, and break negative cycles, all at their own pace.

ADULT

Job loss, legal trouble, a breakup or a family crisis can knock anyone off course. This skills-based class gives adults practical tools to recover from hardship, stay steady under stress and think clearly when it matters. Participants learn to adapt to change, strengthen their relationships and replace old patterns with habits that support long-term success. Self-paced, for court-involved adults or anyone seeking personal growth.

PARENT

Resilience is key to overcoming adversity, breaking negative cycles, and fostering positive change. This course equips individuals—whether court-involved or seeking personal growth—with tools to manage stress, improve decision-making, and build emotional strength. Learn strategies for adaptability, healthier relationships, and long-term success in a flexible, self-paced format.

11 Coping With Disabilities

DURATION **2 hrs** | PRICE **$29.99**

THEORIES FST RT

YOUTH

This module empowers youth to understand and navigate the challenges of living with a disability. Through practical strategies and self-reflection, youth will build confidence, develop coping skills, and learn how to advocate for themselves while recognizing their strengths and potential.

ADULT

Living with a disability can affect work, relationships, independence and emotional well-being. This skills-based class teaches adults practical ways to adapt daily routines, manage healthcare needs, cope with stress and frustration, and communicate their needs clearly. Participants learn to speak up for themselves, find support and resources, and build confidence for a more independent life.

PARENT

Parents with disabilities raise happy, healthy children every day, though some obstacles come up more often. This class helps parents with a disability plan around physical limitations, manage their own healthcare needs alongside their children's, and understand how the child welfare system views disability. Participants learn practical strategies, find support and resources, and speak up confidently for their family.

12 Creating Healthy Boundaries

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **AT** **CBT** **FST**

YOUTH

Knowing when to say no is a skill young people can learn. This skills-based class teaches pre-teens and teens how to set personal boundaries and respect other people's with friends, family and dating partners, both in person and online. They practice assertive communication, build self-awareness and learn to recognize their own needs and limits to stay emotionally safe and avoid conflict.

ADULT

Saying yes to everyone often leads to resentment, burnout and conflict. This skills-based class shows adults how to define their limits and communicate them calmly with partners, former partners, relatives and coworkers. Participants learn to hold firm without guilt, respect the limits others set, and protect their own well-being.

PARENT

Teens learn boundaries by watching the adults around them. This skills-based class shows parents how to set clear, consistent limits at home, model respectful communication, and talk with their teen about friendships, dating, peer pressure and social media. Parents also learn to respect their teen's growing need for privacy and independence while keeping them safe.

13 Dating Violence Prevention

DURATION **3 hrs** | PRICE **$39.99**

THEORIES **CBT** **SLT**

YOUTH

Healthy relationships are built on respect, never on control. This skills-based class teaches pre-teens and teens to recognize the warning signs of dating violence, including jealousy, pressure, put-downs and controlling behavior, in person and online. They practice respectful communication, learn about consent and personal responsibility, and learn how to get help for themselves or a friend.

ADULT

Unhealthy relationship patterns often repeat until someone learns to spot them. This skills-based class helps adults identify the stages of an abusive relationship, from intimidation and isolation to emotional, financial and physical harm. Participants take an honest look at their own behavior, learn to handle disagreements without aggression, and build respectful, safe partnerships. Suitable for court-ordered or voluntary enrollment.

PARENT

14 Dealing with Loss

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **AT**

YOUTH

Loss comes in many forms, from a death in the family to divorce, a move or a friendship that ends. This skills-based class gives pre-teens and teens tools to understand and work through grief. They learn healthy ways to cope, build emotional resilience, honor what they've been through with self-compassion, and find hope and direction for the future.

ADULT

Grief doesn't follow a schedule. This skills-based class helps adults work through the death of a loved one, the end of a marriage, the loss of a job, or separation from their children. Participants learn what grief can look like, find healthy outlets for sadness, anger and guilt, and take steps toward rebuilding daily life with purpose and hope.

PARENT

Talking to children about grief and loss can be challenging, but open and honest conversations can help them navigate difficult emotions. Learn effective methods to support children as they cope with death, separation, and other significant losses. Explore age-appropriate ways to address their questions, provide reassurance, and foster resilience during times of grief

17 Eating Disorder Awareness & Recovery

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **CBT** **DBT** **SLT**

YOUTH

Stress, social media and pressure to look a certain way can change how young people feel about food and their bodies. This skills-based class helps pre-teens and teens understand eating disorders and what causes them, and recognize their own trigger patterns. They practice reframing negative thoughts, managing emotions and treating their bodies with kindness, building the confidence and healthy habits that support recovery.

ADULT

Eating disorders affect adults of every age and background, often hidden behind busy lives. This skills-based class explains how disordered eating develops and how stress, past experiences and cultural expectations can keep it going. Participants identify what triggers them, challenge harsh self-talk, learn healthier ways to handle difficult emotions, and build a more peaceful relationship with food and their bodies.

PARENT

This module helps parents understand the signs, causes, and impacts of eating disorders while providing practical tools to support recovery. Parents will learn how to create a supportive home environment, communicate effectively, and encourage healthy behaviors while reinforcing emotional safety and resilience.

18 Effective Communication

DURATION 2 hrs | PRICE $29.99

THEORIES CBT MI

YOUTH

Being heard starts with knowing how to say what you mean. This skills-based class teaches pre-teens and teens to express themselves clearly, listen actively and handle difficult conversations with confidence. They practice being assertive without being aggressive, resolving conflicts, and communicating well with parents, teachers, friends and future employers.

ADULT

Most arguments start with a misunderstanding. This skills-based class helps adults speak clearly, listen without interrupting and stay calm when conversations get tense. Participants learn to state their needs respectfully, read tone and body language, and work through disagreements with partners, co-parents, family members and coworkers.

PARENT

Strong communication skills are key to building relationships and avoiding misunderstandings. This module teaches you to express yourself clearly, listen actively, and navigate difficult conversations with confidence. Participants will develop assertiveness, conflict-resolution techniques, and strategies for healthy interactions in personal, academic, and professional settings.

19 Emotional Control

DURATION 3 hrs | PRICE $39.99

THEORIES CBT DBT

YOUTH

Big feelings can lead to choices young people regret. This skills-based class teaches pre-teens and teens to recognize what they're feeling, understand why, and pause before they react. They build self-awareness and self-control, practice mindful ways to handle fear, sadness and frustration, and learn to make thoughtful decisions when emotions run high.

ADULT

A single reaction made in the heat of the moment can cost a job, a relationship or time with your children. This skills-based class helps adults understand what sets off their emotions and learn to stay composed under pressure. Participants learn calming techniques, practice responding thoughtfully to stress and disappointment, and build lasting emotional stability at home and at work.

PARENT

This class is beneficial for individuals seeking to manage their emotions effectively and improve their overall well-being. We empower individuals to manage their emotions effectively, improve their relationships, and enhance their overall quality of life. By learning to regulate their emotions, individuals can experience greater resilience, mental health, and personal growth, ultimately leading to a more fulfilling and satisfying life.

What young people eat affects their energy, mood, focus and growth. This skills-based class teaches pre-teens and teens the basics of good nutrition: how to read food labels, build balanced meals and make smart choices at school, at home and when eating out. They learn how healthy eating helps prevent disease and supports lifelong well-being.

ADULT

Good nutrition is one of the most effective ways to prevent disease and lower healthcare costs. This skills-based class shows adults how to plan affordable, balanced meals, shop wisely on a budget and make informed food choices for themselves and their families. Participants learn how everyday eating habits influence long-term health, energy and quality of life.

PARENT

Children build their eating habits at the family table. This skills-based class teaches parents what growing kids need at each age and how to plan simple, nutritious meals and snacks. Parents learn how to handle picky eaters and limit sugary foods without daily battles, and how to model healthy choices that support their children's growth, learning and lifelong well-being.

25 Honor and Integrity

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **MDT** **SLT**

YOUTH

Character shows in the choices young people make when no one is watching. This skills-based class teaches pre-teens and teens the value of honesty, responsibility and ethical decision-making. Through self-reflection, they see how integrity shapes their friendships, their reputation and their future opportunities. They learn to earn trust and to make decisions that match their values.

ADULT

Trust takes years to earn and moments to lose. This skills-based class helps adults examine how honesty and ethical choices affect their families, careers and standing in the community. Participants reflect on past decisions, take responsibility for the harm they caused, and learn to keep their word and act on their values. Suitable for court-ordered or voluntary enrollment.

PARENT

Designed to help individuals understand the importance of honesty, responsibility, and ethical decision-making. Encourages self-reflection, accountability, and personal growth, teaching you how integrity impacts your relationships, choices, and future opportunities. You will learn to build a foundation of trustworthiness and resilience, empowering you to make positive, values-driven decisions.

26 Human Trafficking Risk Factors

DURATION **6 hrs** | PRICE **$69.99**

THEORIES AT CBT RT SLT

YOUTH

This module helps youth understand how trafficking occurs, why certain individuals are targeted, and how risk factors develop. Participants explore emotional triggers, trauma bonding, and social pressures while learning boundary-setting, safety planning, and self-worth skills. The class promotes awareness, resilience, recovery, and positive choices that support long-term safety and empowerment.

ADULT

PARENT

This module educates parents on the warning signs, risk factors, and prevention strategies related to human trafficking. Parents or caregivers will learn how to recognize vulnerabilities, strengthen protective factors, and guide their children in making safe, informed decisions in both online and real-world environments.

27 Impulse Control

DURATION **4 hrs** | PRICE **$49.99**

THEORIES CBT

YOUTH

Acting first and thinking later gets a lot of young people in trouble. This skills-based class teaches pre-teens and teens to stop, think and weigh the consequences before they act. They learn to spot their triggers, manage impulsive urges, build self-discipline and practice waiting for what they want, helping them avoid risky behavior and make better choices.

ADULT

Impulsive spending, angry outbursts and snap decisions can undo years of hard work. This skills-based class helps adults understand why urges feel so strong and how to interrupt them. Participants identify their high-risk situations, practice techniques for delaying action, and learn to weigh long-term goals against short-term relief, building steady habits of self-discipline.

PARENT

The part of the brain that controls impulses isn't fully developed until the mid-twenties, which is why teens often act before they think. This skills-based class shows parents how to respond calmly to impulsive behavior, set consistent rules and consequences, and coach their teen to pause, consider outcomes and wait for rewards. Parents also learn how modeling self-control at home helps teens build it.

28 Intergenerational Trauma

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **AT** **ITT** **SLT**

YOUTH

The pain passed down through generations is not your fault, and you have the power to break the cycle. This skills-based class offers Native youth a compassionate look at intergenerational trauma and cultural disconnection, and how they can affect families today. Through storytelling, self-awareness and traditional values, pre-teens and teens build a stronger sense of identity, learn healthy ways to heal, and grow the resilience to shape a different future.

ADULT

It's never too late to heal, and healing yourself helps the generations that come after you. This skills-based class offers Native adults a compassionate look at intergenerational trauma and cultural disconnection, and how unhealed pain can shape parenting, relationships and daily life. Through storytelling, self-reflection and traditional values, participants reconnect with their identity, learn healthy ways to cope, and take steps to break the cycle for their children and grandchildren.

PARENT

29 Managing Conflict

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **CA** **CRT**

YOUTH

Disagreements are part of life, and how young people handle them makes the difference. This skills-based class teaches pre-teens and teens to see other points of view, show empathy and say what they mean without starting a fight. They practice calming tense situations, clearing up misunderstandings and finding win-win solutions, building problem-solving skills for peaceful, respectful relationships.

ADULT

Unresolved conflict strains marriages, co-parenting, friendships and careers. This skills-based class gives adults a step-by-step approach to working through disputes: listening to understand, staying calm when tempers rise, and separating the person from the problem. Participants learn to negotiate fairly, repair misunderstandings and reach agreements both sides can live with.

PARENT

Conflict is a normal part of family life. This skills-based class teaches parents what conflict is and how to handle it in creative, constructive ways. Families learn to communicate clearly, settle disputes peacefully and strengthen their bonds, creating a calm, supportive home for every member.

30 Motivational Mindset

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **MI** **PST**

YOUTH

Success starts with believing you can grow. This skills-based class teaches pre-teens and teens to set goals they care about, beat procrastination and stay focused when things get hard. They build self-discipline and persistence, learn to treat mistakes as chances to improve, and gain the confidence to take charge of their own futures.

ADULT

Feeling stuck is often about mindset more than circumstances. This skills-based class helps adults clarify their purpose, set realistic goals and break them into manageable steps. Participants learn why they procrastinate, build daily habits that keep them moving, and develop the persistence to stay on course after setbacks. Suitable for court-ordered or voluntary enrollment.

PARENT

31 Navigating Multiple Homes

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **AT** **DT** **SLT**

YOUTH

This module helps youth develop the skills needed to adjust to living between multiple homes. Participants will learn how to manage emotions, communicate effectively, and create stability while navigating changes in routines and family dynamics.

ADULT

PARENT

Change can be hard on children. This skills-based class teaches parents, caregivers and professionals how transitions affect a child's well-being and gives them practical tools to offer support. Caregivers learn to help children handle change with resilience, confidence and a sense of security.

32 Negative Influences and Decisions

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **CBT** **SLT**

YOUTH

The people and habits around young people shape the choices they make. This skills-based class teaches pre-teens and teens to recognize negative influences, from peer pressure to harmful habits and risky behavior, and to stand firm against them. They learn to size up a situation, weigh the consequences and choose what fits their own values and goals, building self-confidence and positive ways to cope.

ADULT

Old friends, old habits and familiar places can pull adults back into the same trouble. This skills-based class helps participants identify the people and situations that lead them toward harmful choices and plan how to respond differently. They learn to think decisions through, set limits with those who hold them back, and build a support network that matches the life they want.

PARENT

This skills-based class gives parents the tools to help their children recognize and resist harmful influences. Parents learn how to guide kids through challenging situations, encourage informed, responsible choices, and build the confidence and resilience children need to stay on a positive path.

33 Negotiating Without Escalating

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **AT** **FST**

YOUTH

Getting what you need doesn't have to turn into an argument. This skills-based class teaches pre-teens and teens how to negotiate with parents, teachers, friends and others in a calm, respectful way. They learn to keep their emotions in check, cool down a heated moment, find common ground and speak up for themselves while still considering what the other person needs.

ADULT

A raised voice can end a negotiation before it starts. This skills-based class shows adults how to prepare for tough discussions about money, schedules, custody or work, and keep them productive. Participants learn to lower the tension, ask for what they need without making demands, find shared interests and reach compromises that hold up.

PARENT

Curfews, screen time, chores and car keys can turn any home with a teenager into a daily standoff. This skills-based class teaches parents how to negotiate with their teen without yelling or giving in. Parents learn to stay calm when pushed, decide which rules are firm and which are flexible, and reach agreements their teen will keep.

34 Reckless Driving

DURATION **4 hrs** | PRICE **$49.99**

YOUTH

A split-second mistake behind the wheel can change a teen's life. This skills-based class helps young drivers recognize risky habits and replace them with safer ones. Teens learn to put the phone away, never drive impaired, control their speed and stay calm on the road, building the confidence and commitment to drive responsibly for life.

ADULT

Speeding tickets, license points and higher insurance rates are only part of what reckless driving costs. This skills-based class helps adult drivers take an honest look at habits like speeding, tailgating, phone use and road rage. Participants learn defensive driving techniques, ways to stay patient in traffic, and why sober, focused driving protects everyone on the road.

PARENT

35 Reckless Driving

DURATION **8 hrs** | PRICE **$89.99**

YOUTH

This class helps youth understand the dangers of reckless driving behaviors such as speeding, distraction, and risk-taking. Participants will learn how these choices impact safety and legal outcomes while building safer driving habits.

ADULT

This class provides adults with insight into the risks and consequences of reckless driving. Participants will explore accountability, decision-making, and practical strategies to reduce risky behaviors and promote safer driving practices.

PARENT

36 Reunification

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **AT** **FST** **TIC**

YOUTH

Youth and parents may be separated for extended periods due to foster care, parental incarceration, military deployment, or no-contact orders. This module helps parents and children stay connected, manage emotions, and prepare for a smooth reunification. Participants will learn strategies to rebuild relationships, set expectations, and create a positive, supportive transition.

ADULT

Foster care, incarceration, military deployment or a no-contact order can keep parents and children apart for months or years. This skills-based class helps parents stay connected with their children during a separation and prepare for the day they come back together. Parents learn what to expect, how children may react at different ages, and how to rebuild trust for a positive, lasting reunification.

PARENT

Coming home after a long separation is a big adjustment for a child. This skills-based class shows parents how to help children feel safe and settled, whether the separation was due to foster care, incarceration, deployment or a court order. Parents learn to go at the child's pace, answer hard questions honestly, respond to anger or clinginess with patience, and rebuild routines that restore a sense of security.

37 Safety Concerns in the Home

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **CBT**

YOUTH

ADULT

PARENT

Safety concerns for children encompass a broad range of issues, all of which are critical to address, in order to ensure the well-being and protection of children. Addressing these safety concerns requires a multi-faceted approach involving parents, caregivers, educators, communities, and policymakers. By prioritizing children's safety, and implementing preventive measures, we can create environments where children can grow, learn, and thrive free from harm.

38 Self-Advocacy

DURATION **3 hrs** | PRICE **$39.99**

THEORIES **RT**

YOUTH

Speaking up for yourself is a skill, and it can be learned. This skills-based class teaches pre-teens and teens to say what they need clearly and respectfully at school, at home, in court and with other adults. They build confidence, set personal goals and learn to make informed decisions, so they can take charge of their future and stand strong against negative influences.

ADULT

Courts, caseworkers, doctors and employers make decisions that affect your life, and you have a right to be heard. This skills-based class teaches adults how to prepare for important conversations, ask the right questions, state their needs with confidence and know when to ask for help. Participants learn to make informed choices and take an active role in their own future.

PARENT

39 Self-Harm

DURATION **4 hrs** | PRICE **$49.99**

YOUTH

When emotions feel like too much, young people need safe ways to cope and people they can turn to. This skills-based class helps pre-teens and teens understand the feelings and situations behind self-harm, without judgment. They learn healthy coping skills, ways to calm strong emotions, and how to reach out to a trusted adult, building resilience and a path toward recovery.

ADULT

Self-harm in adults is more common than most people realize and is often kept hidden. This skills-based class helps participants understand the emotions, situations and surroundings that put them at risk. They learn practical safety strategies, healthier ways to manage distress, and how to build a supportive environment and ask for help, with a compassionate, sustainable approach to recovery.

PARENT

This module helps parents understand the warning signs, risk factors, and underlying causes of self-harm. Participants will learn how to respond with empathy, communicate effectively, and provide support while guiding their child toward healthier coping strategies and professional resources.

43 Theft & Shoplifting

DURATION **2 hrs** | PRICE **$29.99**

YOUTH

Shoplifting often has more to do with feelings than with wanting something. This skills-based class helps pre-teens and teens understand the emotions, thoughts and habits behind stealing, from peer pressure and thrill-seeking to stress. They learn how theft affects victims, their families and their own future, and build the self-awareness and empathy to make lasting change.

ADULT

A theft charge can cost a job, a professional license and a clean record. This skills-based class helps adults uncover the root causes of stealing, such as financial stress, compulsion or a sense of entitlement, and recognize the thinking that excuses it. Participants take responsibility for the harm they caused, learn other ways to handle the urge, and make a plan to prevent it from happening again. Open to court-referred and self-enrolled participants.

45 Understanding Mental Health

DURATION **4 hrs** | PRICE **$49.99**

THEORIES **CBT** **PT**

YOUTH

Mental health matters as much as physical health, and talking about it is a sign of strength. This skills-based class helps pre-teens and teens understand common mental health challenges such as anxiety and depression, recognize the signs in themselves and their friends, and speak openly without shame. They learn healthy ways to cope and how to know when it's time to ask for help.

ADULT

Many adults live with a mental health challenge without ever naming it. This skills-based class explains common conditions, their signs and symptoms, and how they can affect work, parenting and relationships. Participants learn to recognize warning signs in themselves and the people close to them, practice healthy ways to cope, and find out when and where to get professional support.

PARENT

When parents or children struggle with mental health, it profoundly impacts the family dynamic and the well-being of all members involved. This class promotes mental well-being to help reduce stigma, and fosters supportive communities, to help individuals thrive emotionally, socially, and psychologically.

47 Wise Decision-Making

DURATION **3 hrs** | PRICE **$39.99**

THEORIES **CBT** **MDT**

YOUTH

Every choice a young person makes shapes what comes next. This skills-based class teaches pre-teens and teens to think critically before they decide: gather the facts, look at their options, weigh the risks and picture the outcome. They practice making responsible decisions about friendships, school and their own well-being, guided by their values and goals for the future.

ADULT

This module teaches practical strategies for making thoughtful, responsible decisions in everyday life. Individuals will learn how to evaluate risks, manage emotions, and apply structured decision-making techniques to create positive, long-term outcomes.

PARENT

Children learn to make good decisions by practicing, with a parent guiding them along the way. This skills-based class shows parents how to coach their child's thinking instead of deciding for them: asking open questions, talking through options and risks, and letting age-appropriate consequences teach. Parents learn when to step in, when to step back, and how to help their child connect everyday choices to their values and goals.

48 Working With Child Welfare

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **FST**

49 Your Digital World

DURATION **2 hrs** | PRICE **$29.99**

THEORIES **CBT**

YOUTH

Phones, games and apps are part of nearly every hour of a young person's day. This skills-based class helps pre-teens and teens look honestly at how technology affects their sleep, mood, schoolwork and relationships. They track their screen time, weigh the good and bad sides of being online, set limits that work for them, and learn to use technology on purpose instead of out of habit.

ADULT

Constant notifications, endless scrolling and late-night screens take more time and attention than most adults realize. This skills-based class helps participants review their technology habits and how those habits affect their focus, sleep, stress and time with family. They learn to set device-free times, reduce distractions and use technology in ways that support their goals and mental health.

PARENT

Parenting children of today's generation comes with a unique set of challenges due to the many recent advancements in technology. There is no denying the reach technology has in our lives, as well as the lives of our children. There are also many ways in which technology can positively impact our lives and those of our children—it all depends on how the technology is being used.
